RESUME

Role: Social media management & content creation

01. Valley View Resort Seeta (2023)

While working with this restaurant I handled their Facebook page, from creating and editing content to posting. My work helped grow their visibility online and bring in more sales through engaging and consistent content.

02. The Lawns (2022)

At this upscale restaurant, I managed their Instagram and Facebook pages, created eye-catching graphic designs and shot video content that aligned with the restaurant's image. I also developed weekly content calendars to ensure consistent and strategic posting. As a result, their Instagram audience grew by 20% and increased engagement hence attracting more customers.

03. The Furniture Workshop (2023-2024)

At this furniture store, I was responsible for content creation across TikTok, Instagram and Facebook and their Google Business profile. I also handled website maintenance. From planning to execution, I ensured their online presence was consistent and engaging hence helping increase visibility and attract more customers across their multiple platforms.
